

Problem-Solution Fit

Date	26 June 2026
Team ID	-
Project Name	EduGenie – AI-Powered Educational Assistant
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviours, and limitations of your target audience.

1. CUSTOMER SEGMENT(S) [CS] - College students & self-learners - Exam aspirants revising large syllabus - Lifelong learners exploring new topics	6. CUSTOMER LIMITATIONS EG. BUDGET, DEVICES [CL] - Limited free time between classes - Access mainly via laptop/mobile browser - No budget for premium tutoring tools	5. AVAILABLE SOLUTIONS PROS & CONS [AS] - ChatGPT/Gemini web apps (general, not study-tracked) - YouTube tutorials (unstructured, time-consuming) - Static note-taking apps (no AI assistance)
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] - Struggling to get quick, level-appropriate answers — daily - Long documents take hours to revise — weekly, esp. before exams	9. PROBLEM ROOT / CAUSE [RC] No single platform combines AI Q&A;., structured explanations, quizzes, summarization, notes and progress tracking in one place	7. BEHAVIOR + ITS INTENSITY [BE] Searches multiple tabs/apps for one answer — high frequency, high friction
3. TRIGGERS TO ACT [TR] - Assignment deadline approaching - Exam scheduled within days - Confusion while self-studying a new topic	10. YOUR SOLUTION [SL] EduGenie: an AI-powered platform (Fast API + Gemini + MongoDB) offering Q&A;., explanations, quizzes, summarization, roadmaps, notes, bookmarks and a progress dashboard in one authenticated workspace	8. CHANNELS OF BEHAVIOR [CH] ONLINE (web app, browser) OFFLINE (referral from classmates/college template)
4. EMOTIONS BEFORE / AFTER [EM] - Before: overwhelmed, anxious, unsure where to start - After: confident, organized, on top of revision
