Project Name	EduGenie – AI-Powered Educational Assistant
Maximum Marks	3 Marks

Project Executable Files

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

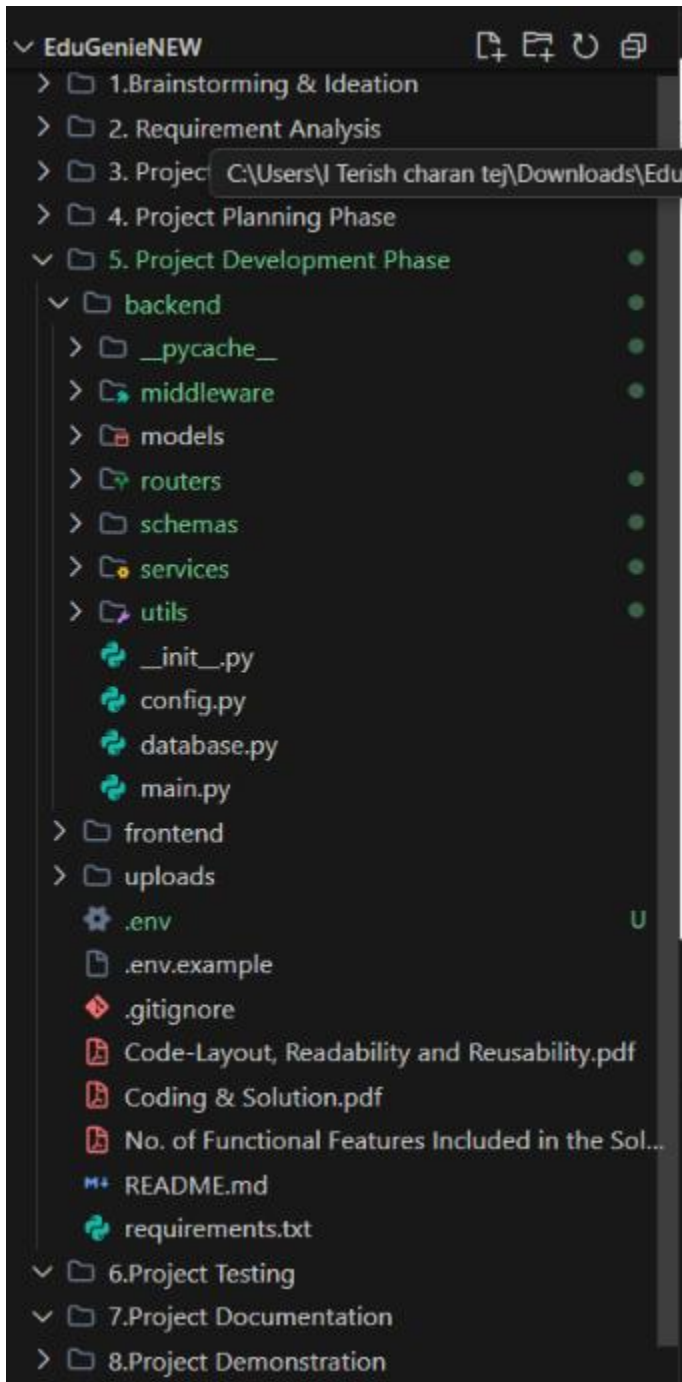

Step 1: Submission Checklist

S. No	Item to Submit	Submitted (Yes/No / NA)
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide (instructions to run the project)	Yes
3	requirements.txt / package.json / dependency file	Yes
4	Database schema / seed files (if applicable)	N/A (MongoDB schema defined via Pydantic models)
5	Environment configuration file (.env.example similar)	Yes
6	Deployed application URL (if hosted)	To be added upon deployment (Render / Railway)
7	APK / Executable binary (if applicable for mobile/desktop apps)	N/A — web application

8	Dockerfile / Containerization config (if applicable)	Not included — run via uvicorn
---	--	--------------------------------------

Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	Local Deployment (http://localhost:8000)
Login Credentials (Demo)	Email Address- raju567@gmail.com Password-terish
Platform / Hosting Provider	Localhost (Development)
Repository Link	GitHub - terish5676/EduGenie · GitHub
Demo Video Link	Demo Video

Step 4: Run Instructions

Provide clear, step-by-step instructions for the evaluator to run your project locally:

Install Dependencies

```
pip install -r requirements.txt
```

Configure Environment Variables

Copy the example file.

```
copy .env.example .env
```

Update the .env file.

```
MONGODB_URI=mongodb+srv://username:password@cluster.mongodb.net/edugenie
```

```
MONGODB_DB_NAME=edugenie
```

```
GEMINI_API_KEY=your_gemini_api_key
```

```
JWT_SECRET_KEY=your_super_secret_key
```

```
ACCESS_TOKEN_EXPIRE_MINUTES=10080
```

```
MAX_UPLOAD_SIZE_MB=10
```

```
DEBUG=True
```

Run the Development Server

```
uvicorn backend.main:app --reload --host 0.0.0.0 --port 8000
```

Open the Application

```
http://localhost:8000
```

Step 5: Known Issues / Limitations

S. No	Known Issue / Limitation	Workaround / Status
1	AI responses depend on Google Gemini API availability and internet connection.	Retry request or check API connectivity.
2	Large PDF/DOCX files may take longer to process.	Recommended file size ≤ 10 MB; processing completes after upload.
3	Mobile interface is responsive but optimized primarily for desktop usage.	Future enhancement includes dedicated mobile UI and PWA support.
